

## **MY DREAM**

### **I WANT TO BECOME A WORLD'S RENOWNED PERFUMER**

I'm a MBA Student of SNMV College of Arts and Science. My UG background is CHEMISTRY. Lot of people asked me and still questioning me why I choose MBA after I completed my UG in Chemistry. When I'm studying my UG I fell in love with Perfumes and Fragrance. My nose is also keen to various fragrances. So I thought I definitely has to become a perfumer and I always dream about to becoming a No.1 perfumer in the world. But I found that I have photoallergic reaction towards the chemicals. So I decided to pursue MBA. So I can still become on of the main fashion house that produce world's best perfume.
